FAILURE TO PAY

The relationship that exists between the school and the parent is a commercial one based on a contractual agreement. Failure to pay school fees therefore is a breach of contract. This means the school is within its rights to terminate the contract. Failure to pay after the prescribed engagement will result in your child being excluded from school activities. We are a private school and as such reserve the right to admission. Parents will be advised to transfer/remove their child to a no fee-paying school

This clause has been drawn to my attention and I confirm that I understand and accept the legal consequences of it according to clause 12 of this contract.
